Applicant's representative held an interview with Examiner Kebede on August 15, 2005. Applicant's representative would like to thank Examiner Kebede for his time and attention to this matter.

Applicant's Representative directed the Examiner's attention to the last sentence of page 2 of the pending Office Action (Paper No. 20050417). Applicant's Representative pointed out that this last sentence incorrectly refers to a "conductive line" with reference numeral 38 of Dennison, wherein "38" of Dennison is not a conductive line. After reviewing Dennison, the Examiner agreed that this is a mistake. The Examiner confirmed that the

last sentence of page 2 should have "38" immediately following the recitation to "contact opening", and that "18" should immediately follow the recitation to "conductive line."

Applicant's representative is greatly appreciative of the efforts and time put in to this matter by Examiner Kebede.

Respectfully submitted,
